## MATERIAL SAFETY DATA SHEET

Section 1: Identification	
Product Name:	Emu Oil
Synonyms:	Dromaius Oil, Dromiceius Oil, Kalaya Oil
CAS#:	158570-96-8
INCI Name:	Emu Oil
Manufacturer:	Uniquely Emu Products, Inc. 510 W Madison St, Ottawa, IL 61350 Phone: 815-434-5726 Email: <a href="mailto:info@uniquelyemu.com">info@uniquelyemu.com</a>
Section 2: Hazard(s) Identification	
Hazard Classification:	Not classified as hazardous.
Skin Corrosion/Irritation:	Product typically is a non-irritant.
Serious Eye Damage/Eye Irritation:	Product typically is a non-irritant.
Respiratory or Skin Sensitization:	Product typically is a non-irritant.
Ingestion:	Product typically is a non-irritant.
Section 3: Composition/Information on Ingredients	
Substances:	Emu Oil      100% by weight
Section 4: First-Aid Measures	
Exposure by inhalation:	Remove user to fresh air if irritation should occur. Seek the advice of a Health Professional if irritation continues.
Exposure via skin:	Is not considered a skin irritant, however if irritation occurs wash thoroughly with mild soap and water. Seek the advice of a Health Professional if irritation continues.
Eye contact:	Is not considered an ocular irritant, however if irritation occurs irrigate eye with copious amounts of tepid water until no evidence of product remains. Seek the advice of a Health Professional if irritation persists in eye.
Ingestion:	If copious amounts are ingested, seek the advice of a Health Professional.
Section 5: Fire-Fighting Measures	
Extinguishing Equipment:	Foam, CO <sub>2</sub> , Water spray or dry powder media.
Hazards:	Not considered combustible under 140 degrees C. Remove containers from path of fire. Heating may cause expansion and rupture of containers. Keep containers cool.
Section 6: Accidental Release Measures	
Absorb with an inert material and put the spilled material in an appropriate waste disposal.

<b>Section 7: Handling and Storage</b>	
This product is a topical oil and does not typically pose problems with transportation or storage.	
It should not be stored or transported with toxic chemicals, flammable gases, explosives, oxidizing agents and spontaneously combustible substances.	
Store in a cool, well-ventilated area and keep containers closed to avoid contamination from impurities.	
<b>Section 8: Exposure Controls / Personal Protection</b>	
Threshold Limit Values:	N/A
Recommendations:	Product is a topical oil meant for the skin and is not considered harmful. Provide adequate ventilation.
<b>Section 9: Physical and Chemical Properties</b>	
Appearance (physical state, color etc.)	At 20°C it is a semi-solid white to off white mass, at 60°C a practically clear white to off white colored liquid. No odor.
pH	n/a
Melting Point	n/a
Boiling Point	150 deg C
Flash Point	>140 deg C
Solubility in water	Insoluble
Specific Gravity	0.95
Water Content	< 0.05%
Acid Value	n/a
Peroxide Value	< 2.0 meg/kg
Free Fatty Acid Value	< 0.10%
<b>Section 10: Stability and Reactivity</b>	
Stability:	Product is stable under normal conditions.
Conditions to Avoid:	Keep away from open flame.
Reactivity:	None under normal processing.
<b>Section 11: Toxicological Information</b>	
Not listed on the latest edition of National Toxicology Program Report on Carcinogens. No additional toxicological information is available at this time.	
<b>Section 12: Ecological Information</b>	
Persistence / Degradability:	This product is readily biodegradable.
<b>Section 13: Disposal Considerations</b>	
Seal in properly labeled containers for disposal. Waste material may be incinerated under controlled conditions when / where permitted. Refer to local Waste Management Authority Regulations for other approved disposal methods.
